Using four Carriage Bolts, four Washers for Caster, and four Hex Nuts for Caster, attach Swivel Caster to the next corner of the Bottom Shelf and last, follow the same directions for the final Swivel Caster. (Figure 1)

(Figure 1)

Note: "Like" Casters should be attached to each corner of the narrow sides of the Bottom Shelf. There are two Swivel Casters (free rolling), and two swivel Casters w/Brake. (Figure 1)

(Figure 2)

Using Carriage Bolts, and Hex Nut, attach the Corner Frame to each of the four corners of the Bottom Shelf. (Figure 2)

NOTE: Pay close attention to the assembly direction of the Corner Frames. It is possible to install them upside down. This would have to be corrected before the assembly could be completed. The first hole in the top/upside measures 1.38" from the end. The first hole in the downside/bottom measures 1.02" from its end. (Figure 2)

À l'aide de quatre boulons de carrosserie, de quatre rondelles pour la roulette et de quatre écrous hexagonaux pour la roulette, fixez la roulette pivotante à l'angle suivant de l'étagère inférieure et, enfin, suivez les mêmes instructions pour la dernière roulette pivotante (figure 1).

(Figure 1)

Remarque : des roulettes "similaires" doivent être fixées à chaque coin des côtés étroits de l'étagère inférieure. Il y a deux roulettes pivotantes (à roulement libre) et deux roulettes pivotantes avec frein (figure 1).

(Figure 2)

A l'aide de boulons de carrosserie et de vis hexagonales, fixez les cadres d'angle à chacun des quatre coins de l'étagère inférieure (figure 2).

**REMARQUE :** Faites très attention au sens d'assemblage des cadres d'angle, car il est possible de les installer à l'envers, ce qui devra être corrigé avant de terminer l'assemblage. Il est possible de les installer à l'envers, ce qui devra être corrigé avant que l'assemblage puisse être terminé. Le premier trou du côté inférieur mesure 1,02" à partir de l'extrémité (figure 2).

Usando cuatro tornillos de carruaje, cuatro arandelas y cuatro tuercas hexagonales, fije la rueda giratoria a la siguiente esquina del estante inferior y, por último, siga las mismas instrucciones para la rueda giratoria final (Figura 1).

(Figura 1)

Nota: Las ruedas deben colocarse en cada esquina de los lados estrechos de la balda inferior. Hay dos ruedas giratorias (de giro libre) y dos ruedas giratorias con freno (Figura 1).

(Figura 2)

Fije los marcos esquineros a cada una de las cuatro esquinas de la balda inferior con pernos y tornillos hexagonales (figura 2).

NOTA: Preste mucha atención a la dirección de montaje de los marcos esquineros, ya que es posible que se instalen al revés. El primer agujero en la parte superior/arriba mide 1,38" desde el extremo. El primer orificio en la parte inferior mide 1,02" desde su extremo (figura 2).

Utilizando quatro Parafusos de Transporte, quatro Anilhas para Rodízio, e quatro Porcas Sextavadas para Rodízio, prenda o Rodízio Giratório ao canto seguinte da Prateleira Inferior e por último, siga as mesmas direcções para o Rodízio Giratório final. (Figura 1)

(Figura 1)

Nota: "Como" as rodas devem ser fixadas a cada canto dos lados estreitos da Prateleira inferior. Existem duas rodas giratórias (rolagem livre), e duas rodas giratórias c/ travão (Figura 1)

(Figura 2)

Usando parafusos de transporte, e Hex Nust, prenda a moldura de canto a cada um dos quatro cantos da prateleira inferior. (Figura 2)

NOTA: Preste muita atenção à direcção de montagem das armações dos cantos. É possível instalá-las de cabeça para baixo. Isto teria de ser corrigido antes que a montagem pudesse ser completada. O primeiro buraco no topo/cima mede 1,38" a partir do fim. O primeiro furo na parte de baixo mede 1,02" a partir da sua extremidade. (Figura 2)

Befestigen Sie die Lenkrolle mit vier Schlossschrauben, vier Unterlegscheiben für die Lenkrolle und vier Sechskantmuttern für die Lenkrolle an der nächsten Ecke des unteren Regals und folgen Sie denselben Anweisungen für die letzte Lenkrolle (Abbildung 1).

(Abbildung 1)

Hinweis: An jeder Ecke der schmalen Seiten des unteren Regals sollten "gleiche" Rollen angebracht werden: zwei Lenkrollen (frei rollend) und zwei Lenkrollen mit Bremse (Abbildung 1).

(Abbildung 2)

Befestigen Sie die Eckrahmen mit Schlossschrauben und Sechskantmuttern an jeder der vier Ecken des unteren Regals (Abbildung 2).

HINWEIS: Achten Sie genau auf die Montagerichtung der Eckrahmen, es ist möglich, dass sie verkehrt herum eingebaut werden. Das erste Loch in der oberen/oberen Seite misst 1,38" vom Ende. Das erste Loch auf der Unterseite/unten misst 1,02" von seinem Ende aus (Abbildung 2).

Utilizzando quattro bulloni a carrello, quattro rondelle per la rotella e quattro dadi esagonali per la rotella, fissare la rotella girevole all'angolo successivo del ripiano inferiore e, infine, seguire le stesse indicazioni per l'ultima rotella girevole (Figura 1).

(Figura 1)

Nota: le rotelle "tipo" devono essere fissate a ciascun angolo dei lati stretti del ripiano inferiore. Sono disponibili due rotelle girevoli (a rotazione libera) e due rotelle girevoli con freno (Figura 1).

(Figura 2)

Utilizzando bulloni a carrello e brugole, fissare i telai d'angolo a ciascuno dei quattro angoli del ripiano inferiore (Figura 2).

NOTA: prestare molta attenzione alla direzione di montaggio dei telai d'angolo. È possibile che vengano installati al contrario. Il primo foro nella parte superiore/superiore misura 1,38" dall'estremità. Il primo foro nel lato inferiore misura 1,02" dall'estremità (Figura 2).
