### **WARNING**

1. The packaging part may be dangerous! To prevent choking hazard, keep the package out of reach of children.
2. When the balance board is placed on the plane, it shall not bear a weight higher than 50kg due to the change of force direction, so as not to cause damage to the plate surface.
3. In the process of use, the curvature may be slightly reduced. If the board surface is not damaged, it will slowly recover the curvature after being placed for a period of time.
4. This product can not be used on too smooth surface, so as to avoid the risk of displacement.
