## SAFETY INSTRUCTIONS

### FAILURE TO FOLLOW THESE WARNINGS MAY RESULT IN SERIOUS INJURY OR PROPERTY DAMAGE.

To ensure safety, do not attempt to assemble this product without reading and following all instructions carefully. Check the entire box and inside all packing materials for parts and/or additional instruction material. Before beginning assembly, identify and inventory all parts and hardware using the parts and hardware lists and identifiers in this document.

Proper and complete assembly, use and supervision are essential for proper orientation and to reduce the risk of accident or injury. A high probability of serious injury exists if this product is not installed, maintained, and/or operated properly.

Failure to comply with any of the warnings in this instruction manual may result in serious personal injuries such as cuts, broken bones, nerve damage, paralysis, brain injury, or death. Failure to comply may also result in property damage. Please heed all warnings and cautions.

- If using a ladder during assembly, use extreme caution.
- Only adults should set up the product. Do not allow children in the setup area until assembly is complete.
- Check base daily for leakage. Leaks may cause product to fall.
- Assemble the pole sections properly. Failure to do so could cause the pole sections to separate during play or transport.
- **Most injuries are caused by misuse and/or not following instructions. Use caution when using this product.**

### WARNING

For safety reasons, we recommend that sand be used instead of water to fill the Base. If a leak develops, water could run out unnoticed, allowing the system to fall over, resulting in serious personal injuries, or property damage.

If using Water, check the Base carefully for leaks. If a leak is found, lay the system down on the ground and call Customer Service. Do not use, stand up, or play on a leaking system.

## **WARNING**

### **OWNERS MUST ENSURE THAT ALL PLAYERS KNOW AND FOLLOW THESE RULES FOR SAFE OPERATION OF THE SYSTEM.**

1. Do Not allow children to move or adjust the system.
2. Always make sure adjustment knob is securely tightened before play.
3. Make sure cement anchors are installed properly during assembly and that they are secure before play.
4. During play, especially when performing dunk type activities, keep players face away from the backboard, rim and net. Serious injury could occur if teeth/face come in contact with the backboard, rim or net. Player should wear mouth guard during play.
5. Only hang from rim briefly to regain balance or avoid injuring others. Release the rim as soon as safely possible.
6. DO NOT slide, climb or play on base or pole.
7. Before each use, always check that the base is filled according to manufacturer's instructions. Check for loose hardware, instability, and signs of corrosion and repair before each use. Check the base for leaks. If a leak exists, water could run out unnoticed, allowing the unit to fall over. Never play on damaged equipment.
8. Surface beneath the base must be smooth and free of gravel or other objects. Punctures can cause leakage and could cause system to tip over.
9. During play, do not wear Jewelry (rings, watches, necklaces, etc.). Objects may entangle in net.
10. When moving system, keep hands and fingers away from moving parts.
11. Once a month check pole and all metal parts for rust. Completely remove rust and repaint with exterior enamel. If rust has penetrated any steel part, replace that part before using system again. Keep water and organic material away from pole.
12. Never operate or leave the unit standing in an upright position without first filling the base with weight and securing cement anchors or it may tip over into the pool and cause injuries such as those listed above.
13. Do not use system during windy or severe weather. System may tip over. Place system in an area protected from the wind or in an area away from property that may be damaged if the system falls.

## TRANSPORTING THE PORTABLE BASE

1. Make sure the base is empty before moving.
2. Face the front of the base where the wheels are located and pull back on the pole until the unit is balanced on its wheels.
3. Move the unit to the desired location and carefully set it down.
4. Fill the Base, secure cement anchors and check portable base for stability before play.

## ADJUSTING THE SYSTEM

1. One person must stabilize the backboard, while the other person removes the pole locking knob and bolt.
2. Adjust the pole to desired height, and replace the knob and bolt.
3. Make sure adjustment knob is secure.

# HARDWARE

---

**A:** 2x short hex bolt  
with washer

**B:** 1x long hex bolt  
with washer

**C:** 4x small hex bolt with  
2x washers and nut

**D:** 4x socket button head  
with washers and nut

**E:** 2x tension knobs

**F:** 1x hex key

**G:** 1x spanner

# COMPONENTS

1. Top Pole (x1)

2. Centre Pole (x1)

3. Bottom Pole (x1)

4. Supports (x2)

5. Backboard (x1)

6. Wheels (x2)

7. Hoop (x1)

8. Net (x1)

9. Base (x1)

10. Axle (x1)

# ASSEMBLY

## STEP 1

To build the first part you need;

Bottom pole (3)

Wheels (6)

Base (9)

Axle (10)

Align one of the wheels (6) into the slots on the base (2), with the help of another person. Take the bottom pole (3) and place into the front of the base.

Thread the axle (10) through the hole to the wheel, through the bottom pole and through to the second wheel.

## STEP 2

Take both supports (4) and align the holes up with those on the base. Secure the four holes on the base using (D) bolts.

Secure to the bottom Pole (3) using (B) BOLTS tightening to secure.

## STEP 3

Fill the base with either water or sand to weight down.

# ASSEMBLY

## STEP 3

Take the centre pole (2) and slot over the bottom pole (3), ensuring the screw holes are aligned.

Secure into place using the 2 (A) bolts, tighten to secure.

## STEP 4

To assemble the backboard and hoop.

Place the plate of the top pole (1) on the back of the backboard (5) and then place the plate of the hoop (7) into the front slot on the backboard.

Secure all three into place using the four small hex bolts (C), tighten to secure.

**NOTE:** Ensure the backboard is between the two metal parts to help with stability.

# ASSEMBLY

## STEP 5

Take the net (8) and hook over the loops.

Now take the top pole assembly and slot onto the centre pole, Align the holes on the top pole with those on the centre pole. Insert the 2x tension knobs. Tighten to secure into place.

The height can be adjusted using the tension knobs (E) by loosening and adjusting the height of the top pole, re-tighten when desired height is achieved.

**CAUTION:** Only an adult should adjust the height.
