- Accessory name

Main shelf: 2parts

Adjustment lever: 2pcs

Single lever: 1pcs

Base lever: 2pcs

Scerw: 6pcs+spare 1pcs

● Accessory name

● Way of assembly

To ensure safety, it is recommended that 2 people assemble at the same time.

Open the main shelf, screw on the adjusting disc after unfolding (as shown in the figure)

● Way of assembly

Connect the knob and tighten

Important: In the direction of the main lever, the tightening knob needs to face the outside, otherwise the horizontal lever cannot be installed with screws. Connect the accessories and tighten the screws.

● Way of assembly

● Way of assembly

Adjustment guidelines

Loosen the knob first, put the adjusting lever into a suitable height and tighten it.

The grip of the horizontal lever is combined with the adjustment bar and locked with screws
Note: The adjustment knob needs to face outwards, if the adjustment knob faces inward, there will be no corresponding holes.

• Height adjustment

Left and right adjustment knobs: Loosen the knobs on the 2 sides first, when the adjustment lever can be turned, you can adjust the height, and then tighten the knob.

After the adjustment on both sides is at the same height level (there is a scale line on the adjustment rod, and the scale line shall prevail), after the adjustment rods on both sides are raised to the same height at the same time, tighten the knob.

Base disc: when there is a gap with the ground, just rotate and adjust to contact with the ground.

● Way of folding

Hold the safety folding lever with both hands at the same time, and pull upwards, the equipment can be folded and closed, as shown in the figure

- Désignation de la pièce

Cadre principal: 2 pièces

Bouton: 2pcs

Disque de réglage: 2pcs

Levier simple: 1pc

Levier de base: 2pcs

Vis: 6pcs+spare 1pc

• Désignation de la pièce

• Mode de montage

Pour des raisons de sécurité, il est recommandé que 2 personnes effectuent le montage ensemble.

Ouvrez le Cadre principal, vissez le disque de réglage après l'avoir déplié (comme indiqué sur la figure).

• Mode de montage

Connecter le Bouton et serrer

Important: dans le sens du levier principal, le bouton de serrage doit être tourné vers l'extérieur, sinon le levier horizontal ne peut pas être installé avec des vis. Raccordez les accessoires et serrez les vis.

● Mode de montage

● Mode de montage

Directives de réglage

Desserrez d'abord le bouton, placez le levier de réglage à une hauteur appropriée et serrez-le.

La poignée du levier horizontal est combinée avec la barre de réglage et verrouillée par des vis.
Remarque: le bouton de réglage doit être orienté vers l'extérieur, si le bouton de réglage est orienté vers l'intérieur, il n'y aura pas de trous correspondants.

• Réglage de la hauteur

Boutons de réglage gauche et droit: desserrez d'abord les boutons des deux côtés, lorsque le levier de réglage peut être tourné, vous pouvez régler la hauteur, puis resserrez le bouton.

Une fois que le réglage des deux côtés est au même niveau de hauteur (il y a une ligne graduée sur la tige de réglage, et la ligne graduée doit prévaloir), une fois que les tiges de réglage des deux côtés sont levées à la même hauteur en même temps, serrez le bouton.

Disque de base: lorsqu'il y a un écart avec le sol, il suffit de le faire tourner et de l'ajuster pour qu'il soit en contact avec le sol.

● Mode de pliage

Tenir le levier de pliage de sécurité avec les deux mains en même temps, et tirer vers le haut, l'équipement peut être plié et fermé, comme indiqué sur la figure.

- Nomi delle Parti

Struttura principale: 2 parti

Manopola: 2 pz

Leva di regolazione: 2 pcs

Leva singolare: 1pc

Leva di base: 2 pcs

Leva di base: 2 pcs

Vite: 6pcs+spare 1pc

● Nomi delle Parti

● Metodi di Assemblaggio

Per garantire la sicurezza, si consiglia di assemblare con 2 persone contemporaneamente.

Aprire la struttura principale, avvitare il disco di regolazione dopo averlo aperto (come mostrato nella figura).

● Metodi di Assemblaggio

Collegare la manopola e stringerla

Stringere la manopola

Stringere la manopola

Importante: in direzione della leva principale, la manopola di serraggio deve essere rivolta verso l'esterno, altrimenti la leva orizzontale non può essere installata con le viti. Collegare le parti e serrare le viti.

● Metodi di Assemblaggio

● Metodi di Assemblaggio

Istruzioni per la regolazione

Allentare prima la manopola, posizionare la leva di regolazione ad un'altezza adeguata e serrarla.

La presa della leva orizzontale è abbinata alla barra di regolazione e bloccata con viti.
Nota: la manopola di regolazione deve essere rivolta verso l'esterno, se la manopola di regolazione è rivolta verso l'interno, non ci saranno fori corrispondenti.

● Regolazione in altezza

Manopole di regolazione sinistra e destra: allentare prima le manopole sui 2 lati, quando la leva di regolazione può essere ruotata, è possibile regolare l'altezza, e poi serrare la manopola.

Dopo che la regolazione su entrambi i lati fino allo stesso livello di altezza (c'è una linea di scala sulla leva di regolazione e la linea di scalo deve prevalere), dopo che le leve di regolazione su entrambi i lati sono state sollevate alla stessa altezza contemporaneamente, stringere la manopola.

Disco di base: quando c'è una distanza fra il disco e il terreno, basta ruotare e regolarlo a contatto con il terreno.

● Metodo di Piegatura

Afferrare contemporaneamente la leva di chiusura di sicurezza con entrambe le mani e tirare verso l'alto, l'attrezzatura può essere piegata e chiusa, come mostrato in figura.
