A20-259

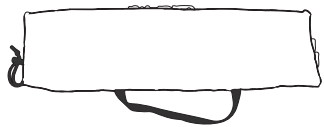

WARNING:
KEEP ALL FLAME AND HEAT SOURCES AWAY
FROM THIS TENT FABRIC.

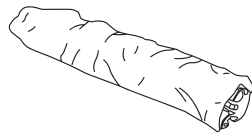

IMPORTANT, RETAIN FOR FUTURE REFERENCE: READ CAREFULLY

ASSEMBLY INSTRUCTION

A. Bag x1

B. Tent x1

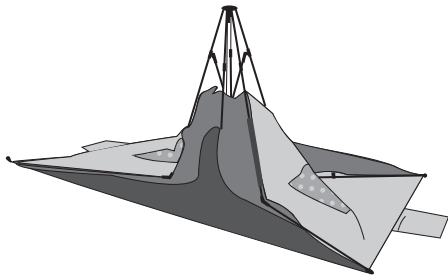

C. Nails x4

E. Wind rope x4

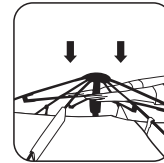

Open steps:

Lay shelter flat with central hub upright. Make sure poles are fully extended and spread out.

Standing behind the shelter, raise the top of the hub to eye level.

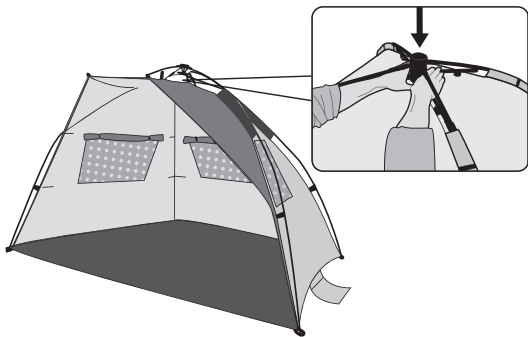

Lift up the top of the tent and extend the legs, press down the pole in the middle to fully open it.

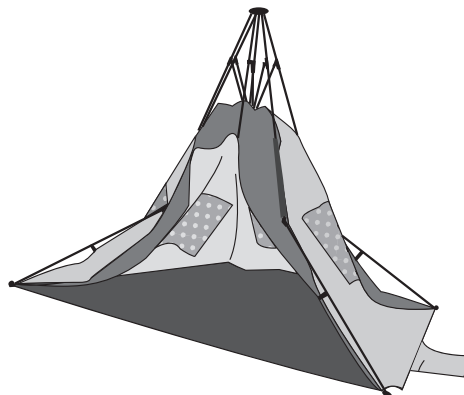

As hubs get closer to connecting, the resistance will increase and the body of the shelter will bow out.

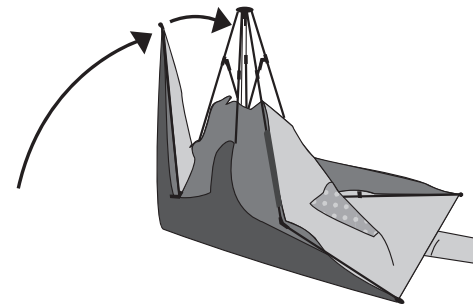

Storage steps:

Separate central hub by pushing down on the lower hub poles.

WARNING: Stand back when closing shelter - hub pops up quickly

Holding central hub upright, fold poles up toward the hub.

Put it in a bag
